Sir:

The following amendments and remarks are respectfully
submitted in connection with the above-identified application
which is an RCE.

IN THE CLAIMS:

Please amend claims 24, 27 and 32 as follows:

24. (amended) A display unit comprising:
means for receiving video signals for video display from
a video source;
memory means for storing at least display unit
information, wherein the display unit information includes
identifying information of the display unit; and
a communication controller capable of bi-directionally
communicating with the video source;
